

Linda Noronha, M.A., Resident in Counseling Counselor

I earned my Master's Degree in Professional Counseling from Liberty University and Bachelor's Degree in Criminal Justice, Administration from Strayer University. My counseling experiences have been working with children, adolescents and their families who have been hospitalized with chronic illnesses, autism, cerebral palsy, mood, personality, and behavioral disorders. Based on the client's needs, I have utilized Cognitive Behavioral Therapy, Person Centered Therapy, and Play Therapy treatment modalities. Some of my favorite things to do during my off times are spending time with my five grandchildren, writing, traveling, and volunteering my services within my community.
