

## **Mental Health Skill-building Support Specialist**

If your goal is to be an effective mental health professional and provide quality mental health services, come work with a premier mental health agency and receive training, experience, guidance and supervision that will help you reach your goal! Join a team that shares the same goals that you share, and be part of an agency that is committed to providing outstanding training/supervision and excellent mental health services.

Lighthouse Behavioral Health Center is currently seeking part-time and full-time Support Specialists to provide Mental Health Skill-building services. Position includes providing support, psycho-education and teaching skills in areas such as symptom management and independent living skills to adults with severe mental illness. Services are provided in the individual's home and community.

Qualified candidates must have a bachelor's degree in counseling, psychology, social work or related field with at least one year experience working with individuals with mental illness.

**Company offers competitive pay, bonuses based on team performance, free clinical supervision, vacation and sick time, holiday pay, training in areas such as substance abuse, severe and chronic mental illness, play therapy, CBT, DBT, trauma, etc. and mileage reimbursement!**

This is an hourly position. Individuals must have a valid driver's license and reliable transportation. We work with individuals in Richmond, Chesterfield, Hopewell, Petersburg, Dinwiddie, Henrico and surrounding areas.
