

David Doucet, MSW

I grew up in the Richmond area and earned both my Bachelor and Master of Social Work from Virginia Commonwealth University. During my undergraduate internship, I worked with male-identifying middle school students, facilitating mentoring groups. I have worked with adults experiencing addiction related disorders and other cooccurring disorders and created a support group for veterans with addiction issues. I embrace a strengths-based approach and strive to foster genuine connection with clients. In my spare time I enjoy spending time with my family, cooking, visiting historic sites, and visiting the VMFA.
