

**Janique Washington, B.A.,  
QMHP-C, QMHP-Trainee**

I graduated from Buffalo State University with a Bachelor of Arts in Psychology in May 2016. Throughout my career working with the mental health population, I have worked mainly with children and their families providing a variety of services such as Intensive In-Home and Therapeutic Day Treatment in school as well as afterschool. My experience also includes providing Mental Health Skill Building. It is my choice to be a part of helping the mental health community because I naturally have a passion for helping others. In my free time, I enjoy staying active whether it's volleyball or working out, listening to music, and cosmetology.
