

Julius White, B.S., MPA, QMHP-A/C

Julius joins the Lighthouse team with over 15 years of experience in Community Based Services. In my many years of services I've had the opportunity to work collaboratively with adults and children/adolescents through leading a Therapeutic Day Program, to leading teams and providing direct support in Intensive In-Home, and Mental Health Skill-Building. These experiences have afforded me the opportunity to work with multiple mental health diagnosis including Anxiety, Bipolar Disorder, Schizophrenia, Depressive Disorder, Anger Management, Attention-Deficit Hyperactivity Disorder, and Attention Deficit Disorder. It is my focus to provide person centered support with a strength-based focus, in hopes of creating a safe space that allows each client to heal in their own way and to live their best life.
