

## Kari Beganie, MSW

I graduated from Virginia Commonwealth University with a bachelor's degree in social work in 2017. A few years later, I went back to school and graduated with my master's in social work in 2023. I am currently on track to obtain my license in clinical social work. My experience includes working with a variety of populations such as adolescents and children, and adult women with substance use disorder. I have been working with chronically homeless individuals for the last six years. All of this has given me experience in addressing mental health needs, substance use disorder, and housing resources. My approach is mostly person-centered with experience in motivational interviewing and cognitive behavioral health therapy. In my free time, I love being with my family, painting and exercising.
