

Katelyn Bolt, B.S., QMHP-C

I graduated from Virginia Tech in 2019 with my Bachelors in Cognitive and Behavioral Neuroscience and minors in Sociology and Psychology. I began working in the behavioral health field soon after and have experience working with adolescents in residential settings. I just recently moved to Richmond and am excited to start working with adolescents and their families through in-home services using a trauma-informed and person-centered approach. I am also working on my master's degree in Health Administration through George Mason University and will be graduating next year. In my free time, I enjoy listening to music, spending time with my friends, and hanging out with my dog.
