

Marissa Walia, B.S., QMHP-Trainee

I received my Bachelor's degree in Psychology from the University of Mary Washington in 2020. I am currently working towards my Master's degree in Social Work with a focus on Clinical Social Work from Virginia Commonwealth University, with a plan to work towards my LCSW. I have worked with children ages 3-12 for over 10 years, and have experience in early childhood education, ADHD, Sensory Processing, anxiety, and depression. I believe in taking a trauma-informed and family-centered systems approach to providing services and support. In my free time I enjoy meeting new people, rock climbing, yoga, karaoke, watching movies with friends, and thrift shopping!
