

## Morgan Nutter, MSW

I graduated from Virginia Tech in 2019 with a Bachelor of Science in Psychology and a double-major in Human Development. I then completed my Master of Social Work degree at Virginia Commonwealth University in 2021. I have clinical experience working with both children and adults in several settings, including sexual/domestic violence, hospice, and both the inpatient and outpatient environments in the hospital. I believe that a strong therapeutic relationship is essential in the treatment process in any setting and strive to utilize a person-centered and strengths-based approach in my work with clients. I also incorporate motivational interviewing, mindfulness and strive to meet the client where they are by taking a person-in-environment approach. In my free time, I enjoy checking out local restaurants with friends, going to the beach, and spending time with my family on the water.
