

Ryanna Jensen, MSW, Supervisee in Social Work

I have lived all around America throughout my early life, but found my home here in Richmond, Virginia a handful of years ago. I received my bachelor's and master's in social work from VCU. During my time at VCU I worked with youth involved in the foster care system, conducted individual outpatient therapy for teens, and lead several different groups on grief and mindfulness. I cherished my time learning at VCU, and I'm thrilled to begin my journey here at Lighthouse. In my free time I enjoy doing nail art, exploring Richmond, and spending quality time with loved ones!
